HA High School tops science, engineering competition

Team, individuals shine at competition

Hoopeston Area High School students took top honors in its division of the Worldwide Youth in Science and Engineering competition.

Twelve schools and 162 competed in the Feb. 6 event. Students were tested in seven academic areas, including mathematics, physics, chemistry, biology, English, engineering graphics and computer science.

Hoopeston Area took top honors in the team awards, Division 700, with enrollments between 301 and 700 students. Georgetown-Ridge Farm finished second.

Danville High School finished first for schools with enrollments over 700 and Rantoul High School finished second.

In the small schools division, with enrollments under 300, Oakwood was the winner, followed by Bismarck-Henning High School and Chrisman High School.

Individual awards were also earned. Ben Greene of Hoopeston Area tied for second place in the math competition with Josh Chumbley of Rantoul Township High

School and Andrew Wassef of Danville High School.

In the computer fundamentals competition, Ryan Harden and Chad Burge, both of Hoopeston Area, took first and second respectively.

The competition, a test of engineering aptitudes in mathematics and science, was held at Danville Area Community College. This was the 23rd annual regional competition and was sponsored by the DACC Science Division.

The top two teams from each division will advance to sectional competition at Eastern Illinois University on March 22. The two top award winners in each subject from each division will also advance.

Each student competed in two subjects with the highest scoring seniors receiving a tuition scholarship to DACC. This year's scholarship winners were both from Danville High School.

Participating schools included Armstrong, Bismarck-Henning, Catlin, Chrisman, Danville, Georgetown-Ridge Farm, Hoopeston Area, Jamaica, Oakwood, Rantoul, Rossville-Alvin and Schlarman.
