Food Cupboard meets needs of more than 1,000 families

In 2003, the Grant Township Food Cupboard provided supplemental food for 1,322 families in the area. These families represent 3,545 people, an average of just over nine families or 24 people each of the 145 days the Food Cupboard was open last year.

A corps of reliable volunteers provides the time and labor needed to distribute food, as well as stock the shelves and load and unload commodities and other donations. There are also many individuals, businesses, organizations, churches and schools who support the Food Cupboard with donations of food and money.

With the assistance of a generous grant from a private charitable foundation, the Food Cupboard was able to purchase additional freezers and refrigerators to better handle perishable foods that

are donated.

Because of the ever-increasing need for help from the Food Cupboard and despite the wonderful support of the community with both food and money, the Food Cupboard board of directors needed to dip into emergency reserves to cover the gap for costs of food needed between supply and demand last year. Board members anticipate the challenge of further increase in need this year but are determined to meet that challenge and are looking for other resources for food donations to supplement those made by people in the community. The Grant Township Food Cupboard is dedicated to being available to help people with food needs until there is no longer a need.

The Food Cupboard board would like to thank everyone who has played a part in any way in

Briefly
