Health department suspends flu clinics pending more vaccine

The Vermilion County Health Department is out of flu vaccine, and is suspending flu clinics until more vaccine arrives in a few weeks.

The department had received 680 doses of vaccine in early October, and had scheduled flu clinics, with the expectation that an additional 670 doses ordered would arrive in time to meet the demand. Instead, department has learned that the remainder of the order will not arrive until late October or early November.

For more information, call the Health Department at 431-2662, ext 242, or visit their website at www.vchd.org. Announcements about flu clinics will be posted on the website and communicated to the public.

The Health Department is giving quadrivalent vaccine, which offers protections against four strains of flu virus. There is still plenty of time to receive a flu shot as the flu season often doesn't peak until January or February.
