Local family gets support, prayers for baby daughter

Nine-month old Willamina Clayton is too young to know that hundreds of people are thinking about and praying for her.

But her parents, Katie (Crouch) and Will Clayton are aware of the support that family, friends and acquaintances are sending their way.

Willamina was diagnosed on Friday, June 13, with a liver tumor. She was taken to Riley Children's Hospital in Indianapolis, where she was diagnosed with hepatoblastoma, a rare form of liver cancer. She has had a central line put in so doctors can begin chemotherapy.

Willamina's story is being updated by her mom at www.caringbridge.org. There, in the box "Visit a CaringBridge website," enter Willamina.

Users will have to register with their email addresses to enter the site, which includes pictures of Willamina. A guestbook is available to send wishes to the family.
