Area students to compete in WYSE Academic Challenge

Danville Area Community College will host the 34th annual Academic Challenge competition, Tuesday, February 7 in the Mary Miller Gymnasium. Twelve area school districts, represented by 166 students, are expected to send representatives from the junior and senior classes to this year's competition.

Each school is required to have at least six team members, but most send closer to fourteen participants. The competition is open to all classes, but mainly consist of juniors and seniors.

The Academic Challenge is a battery of tests that is created by the Worldwide Youth in Science and Engineering Society (WYSE). Participants are tested in seven different academic areas including mathematics, physics, chemistry, biology, English, engineering graphics, and computer science. Between arrival at 9AM and lunch at 11:30AM, students receive a brief orientation and take two 40-minute tests.

Teams must have at least two students test in each of the three required areas of English, math, and chemistry and two students in at least two of the other four areas of

biology, physics, computer science and engineering graphics in order to qualify for the team awards.

DACC staff and faculty from the Science and Math Division meet with the team coaches during the testing periods to update them on future changes to the test program and receive feedback on the competition.

Following the testing periods, students are treated to a pizza lunch while test scores are finalized. DACC provides entertainment, including math and science games while participants await their results. Award presentations are at approximately 12:45 p.m. Team ribbons are awarded for first through third place in each division, based on school size. Individual medallions are awarded for those placing first through third place over all the divisions in each testing area. Winners of the regional competition continue on to the sectionals held at Eastern Illinois University on March 8, and then may advance to the State Finals at the University of Illinois.

For more information about the WYSE Academic Challenge at DACC please contact the Math/Science Division office at 217-443-8805.

County clerk sets extended hours for voter registration

DANVILLE—Vermilion County Clerk Lynn Foster announced extended hours for voter registration.

Registration may be done from 9 a.m. to noon on Saturday, Feb. 4, 11 and 18 at the Annex.

New registrations, as well as address and name changes, must be completed by Tuesday, Feb. 21, for voters to be eligible to vote in the March 20 general primary election. Grace period registration and voting will be available from Wednesday, Feb. 22 through Tuesday, March 13.

"I am frequently asked if voters are required to re-register periodically," Foster said. "In general terms, the

answer is no." Voter registration in Illinois is permanent; however voters who move or whose addresses changed must update their registrations and voters who change their names must reregister because their signatures will be different. To check the status of your voter registration, go to www.vercounty.org and click on County Clerk-Voter Registration Search or call the Voter Registration Hotline, (217) 554-1915.

To register, applicants must be U.S. citizens, at least 18 by March 20. Those who cannot register in person may request a form to apply for voter registration by
