VCHD sets clinics for Immunization Awareness Month

DANVILLE—There are many things we want to pass on to our loved ones, but illness is not one of them.

August is National Immunization Awareness Month, and Vermilion County Health Department is highlighting the importance of vaccination for people of all ages in preventing serious, sometimes deadly, diseases.

Vaccinating children is commonplace in the U.S., but few adults know they need vaccines other than for flu, and even fewer are fully vaccinated.

Not only can vaccine-preventable diseases make someone sick, but once people become sick, they may risk spreading the disease to others. Infants, older adults and people with weakened immune systems – such as those undergoing cancer treatment -- are especially vulnerable to infectious diseases, and are also more likely to have severe illness and complications if they do get sick.

Adults can get vaccines at doctors' offices, pharmacies, workplaces, health clinics and health departments. Most health insurance plans cover the cost of recommended vaccines, and people can get the details of their plans by contacting their insurance providers.

It is recommended that all adults get an annual flu vaccine to protect against seasonal flu, and a Tdap to protect against tetanus, diphtheria and pertussis, with a booster

shot every 10 years.

Depending on age, occupation, health condition, and other factors, getting vaccinations for hepatitis A, hepatitis B, human papillomavirus (HPV), meningococcal, pneumococcal, and shingles are also recommended.

As part of National Immunization Awareness Month, the health department is offering immunization clinics from:

9-11 a.m. and 1-3:30 p.m. August 9;

2-6:30 p.m. August 17

9-11 a.m. and 1-3:30 p.m. August 23 at 200 S. College Street, Danville.

The department's full 2017 immunization schedule is available at www.vchd.org.

Immunizations are done by appointment only, which can be made by calling (217) 431-2662, ext. 249. People must bring their current shot records to the appointment. The health department can bill most insurance providers for immunizations, and accepts public aid cards, cash, checks, and credit cards for payment.

The health department hopes to receive its flu vaccine in late August, and will set dates for its walk-in flu vaccination clinics after the vaccine arrives. Please check the health department's website, www.vchd.org, for updates.
