**Free electronics recycling event set for October 19 at DACC**

DANVILLE—Vermilion County Health Department will host a free electronics-collection from 9-11 a.m. Saturday, Oct. 19 in the north parking lot of Danville Area Community College, 2000 E. Main St., in Danville for all county residents.

The event is jointly sponsored by Danville Area Community College, Vermilion County Health Department, and Keep Vermilion County Beautiful, and is open to any county resident. Proof of residency of those taking part in the collection will be checked. Vermilion County residents will be limited to a maximum combination of seven items per vehicle at the collection.

"We are happy to work with residents to properly recycle these types of electronics in an environmentally safe and responsible manner," said Public Health Administrator Douglas Toole. "By doing so, many materials will be reused in the manufacturing of new products and potentially harmful chemicals will be diverted from landfills." Toole can be reached at (217) 431-2662, ext. 243 for more information about the event.

The focus of the event is to collect CRT or flat screen televisions, CRT or flat screen monitors, and related electronic items.

Items such as cable receivers, satellite dishes, computers, computer peripherals (keyboards and mice), printers, DVD players, fax machines, gaming consoles, laptops,

PDAs, scanners, servers, VCRs, wires and cameras, will be accepted, but most of those items may also be taken to local recyclers during their regular business hours.

Household batteries, paint, motor oil, or large appliances—See RECYCLING on other side

**From the Blotter**

**James A. Brayboy**, 21, of Hoopeston, was arrested after he was found walking in the middle of Cornjerker Way at 5 p.m. Tuesday. Advised not to be in the middle of the road, police said Brayboy refused to move. He was cited for pedestrian in roadway and released on a notice to appear in Hoopeston City Court.

**Two Hoopeston people** were arrested at 6:53 p.m. Tuesday in the 500 block of East Young.

While speaking with police, Titus Barber, 41, and Megan Lane, 32, were found to have drug paraphernalia. The were charged accordingly and released on a notice to appear in Hoopeston City Court.

**Fire Calls**

Hoopeston Fire Department was called for mutual aid at 211 Henderson, Rossville, for smoke coming from the roof of the house. No injuries were reported.

## Hub City Media is opening a new office in Rossville and is looking for Technical Specialists!

Are you up to the challenge?

Are you passionate about technology and have an interest in cybersecurity?

Are you a dynamic, enthusiastic individual with excellent technical and communication skills ready to fill an entry-level Technical Specialist position in our Professional Services Department?

Then put your inquisitive and engineering skills to work with our Identity and Access Management clients!

Hub City Media, a recognized Identity and Access Management thought leader, is looking for entry-level Technical Specialists in our Professional Services Department with the ability to complete software implementations for many of the world's largest Fortune companies. These individuals will work as part of our Technical Team, collaborating with Sales Consultants, Key Account Executives and clients to ensure successful deployments of Identity and Access Management solutions.

### Essential Duties and Responsibilities:

- \* Ability to learn complex software solutions that support Identity and Access Management
- \* Apply technical expertise in decision-making and resolution of highly complex and technical problems
- \* Possess engineering skills required for building and testing the systems environment and for break / fix solution for escalated issues
- \* Exercise regular and clear communication with our clients to establish, maintain and solidify a lasting relationship
- \* Identify opportunities, issues and perform risk management, including appropriate mitigation
- \* Ability to closely collaborate and work both horizontally and vertically within the organization
- \* Think strategically and participate in growing our company beyond the 'what is' into the realm of 'what can be'

### Education, Training and Experience:

- \* Degree in Computer Science, Information Systems, Engineering or related field of study or equivalent experience
- \* Education and academic experience developing in Java and JavaScript
- \* Education and academic experience developing in Python a strong plus
- \* Education and academic experience in Linux a strong plus
- \* Customer service / client satisfaction experience a plus
- \* Experience with SDLC a plus
- \* Executing unit and system test plans a strong plus
- \* Proficiency using Microsoft Office and Google G Suite
- \* Strong organizational and written / verbal communication skills with great attention to detail
- \* Ability to juggle multiple responsibilities while meeting demanding deadlines, produce high quality work and project a positive attitude
- \* Detail-oriented, self-motivated and highly organized with solid problem solving skills
- \* Strong ability to build lasting relationships with clients
- \* Highly professional; communicate to all business levels
- \* Ability to travel

### Our Unique Culture Offers

- \* A highly collaborative environment that pushes you to think beyond your boundaries
- \* A diverse workload, keeping you continually stimulated
- \* An open forum for expression of ideas
- \* Diverse opportunities to expand your skills
- \* Comprehensive training and support as you face new challenges

Send a copy of your resume to [careers@hubcitymedia.com](mailto:careers@hubcitymedia.com) to apply!

## Recycling continued from other side

ces will not be accepted at the October 19 event.

A full list of items that will and will not be accepted can be viewed on the health department's website, [www.vchd.org](http://www.vchd.org), and on its Facebook page.

It is now illegal in Illinois for electronic products such as televisions, computers, monitors, DVD players, fax machines and printers to be disposed of in landfills.

According to the United States Environmental Protection Agency, recyclers now recover more than 100 million pounds of materials from electronics each year, some of which can be converted into raw material for new products.

Some electronics can contain toxic materials such as lead, mercury, arsenic, cadmium and beryllium that must be properly managed to prevent soil and groundwater contamination. But obsolete electronic products can also contain valuable materials that can be recycled for reuse such as copper, gold and circuit chips.

## Weather

Mostly cloudy today. High 75. Tonight, chance of thunderstorms. Low 60. Tomorrow, showers. High 69, low 36.
