What's Wrong with Thank You?

Something weird happened this week. I got a Thank You in the mail from a friend! I thought I was dreaming! Wow!

For years (even when I was a kid - a few years ago) Thank-Yous were very common. I wonder what happened? You would think those two were foreign or dirty words. They are just not used enough! Perhaps folks don't know what Thank You means. Maybe they grew up without birthday parties, weddings or Christmas. When did Thank You go away?

We are all very busy doing nothing or something we think is important. We enjoy success in our business or our life. We have a good education, we try and encourage others to learn all they can, no matter their age. There's certainly a reason to say, Thank You to someone!

Now Bertha, when I get a gift or a letter from a friend, I'm sure they know I am thankful. I don't have to say, "Thank You," do I? The \$100 question and a million-dollar answer. Don't worry about being clever, you are in the company of kids, teens, grown-ups and old folks who often forget to use those two little words.

It is an example of how our attitude gets in the way of common sense. "They know I care. I don't have time, they understand." "It's just words, no one cares about Thank You."

Nothing can take the place of caring: for yourself first, your family second and then your friends. We get in the habit of thinking they can read our minds. A prescription for the failure of Thank You. Just take a few moments and think of all you must be thankful for. My list is way over 50 Thank-Yous. For starters, thank you for the beautiful weather, for fresh garden veggies, and homemade bread and funny friends who make me laugh.

If you are anything like me, you love getting mail from a faraway friend or even the next-door neighbor! You take the time to tear open the envelope, take a seat, pour a cup of coffee, then you start reading. All of a sudden, you are smiling, and then laughing! Joy fills your space! Maybe you should call and say Thank You, or should you? There is nothing wrong with Thank You. It should be heard more often. It is just some folks who are not quite sure, but I am!

Thank You for allowing me to write to you!
