Public health administrator announces two deaths, 114 new Covid cases in Vermilion County

Vermilion County Health Department (VCHD) reported 114 new Covid cases on October 1, including one each in their 90s, 80s and 70s, six in their 60s, 16 in their 50s, 11 in their 40s, 12 in their 30s, 13 in their 20s, 28 teens, 16 grade-school-aged children, three pre-schoolers, two toddlers, and four infants. Ninety-three people were released, which brings a cumulative

total of 13,074 positive cases since the pandemic began.

Public Health Administrator Doug Toole announced two COVID-related deaths: a man in his 60s, and a woman in her 20s. Vermilion County has had 190 Covid-related deaths since the pandemic's onset.

There are currently 21 Vermilion County residents

with COVID hospitalized. There are currently 276 active COVID cases in the county.

Toole said VCHD is aware of nine Vermilion County residents who became reinfected with COVID since June 1.

Of the 114 cases being reported October 1, one of them told health department personnel that they have been fully vaccinated.

As part of the interview process, contact tracers ask each person who tested positive whether they are fully vaccinated against COVID-19.

Two of the 21 Vermilion County residents currently hospitalized with COVID are fully vaccinated.

Corn crate cleanup

Roger Uden, left, Hoopeston Parks Department lead, along with Blaine and Chaz Landers, remove crates from the McFerren Park basketball court Monday. The crates contained corn for the National Sweetcorn Festival, held over Labor Day weekend. The pile did not deter hoops enthusiasts, who have played around the pile.

**Good news.
 Rates just
 got lower.**
