Family

All of us have families, good, bad, or otherwise. Family usually consists of more than two, but every family is different, which makes life exciting. Like celebrating Thanksgiving alone or just the two of us. As strange as it was, we had a nice celebration together. We talked about the future, what we both wanted and what we both needed. Have any of you done that recently? It’s amazing what we learn about each other. Lots of surprises and some crazy ideas. If you are like us, you are looking for things to do and wondering when things will get better. Having a family, whether two, six or 12, is a real blessing, most of the time. Growing up an only child, I always wanted lots of people around. Having guests over and family together was such a joy.

Many folks think a college degree, a rich uncle or maybe a hard-working parent is the key to success. I believe positive thinking can take you wherever you want to go in life. My mother was the most positive person I’ve known. When her sister died, mother took in four of her sister’s young children. She had no job, no house, no money, and no savings. What she did have was faith and a positive outlook as she raised those children through adulthood. Perhaps in your family or your neighbor’s family, there is someone who always says, “I believe in you.” Four little words that can change your life or mine.

Many of you only have one family. Some may have two or three families. It makes no difference because family is all about relatives, no matter the size they will be there no matter how scary the times. It’s family. It’s a clan, a circle, a gang or group!

Have you ever said, “The gangs all here”? I have, when three of my four grandsons arrive, I always say that. The gang in my family, there is someone who always says, “I believe in you.” Four little words that can change your life or mine. Family is really about Love.

Family Is 

Every family is different (thank goodness), every family has a story. Let’s make our family story one we all can be proud of and say, “Family is really about Love.”

Contact tracers making contacts in county, cases continue up

Trained contact tracers are getting a clearer picture of the spread of Covid-19 in Vermilion County. Public Health Administrator Doug Toole said last week that six contact tracers have been trained and are making calls to people who may have been exposed to the novel coronavirus by people who tested positive.

Previously, Vermilion County Health Department staff had tried to keep up with contact tracing, but as the number of positive cases grew, and the number of those who might be infected grew exponentially, keeping up became difficult.

The number of cases continues to climb, for a cumulative total of 3,723, as of Sunday. Of those, 45 were released and 332 were active.

The number of residents hospitalized due to the virus has remained steady at 34 since December 1. The figure does not reflect whether the same people

Bank donates to Hoopeston, Rankin, Paxton food pantries

The Frederick Community Bank, with branches in Paxton and Cisna Park, has made donations to help residents of Paxton, Hoopeston and Rankin during this difficult time. Through its partnership with Federal Home Loan Bank of Chicago Targeted Impact Fund, The Frederick Community Bank is providing donations to four organizations in our local communities. The Hands of Christ Food Pantry and PBL Area Food Pantry both located in Paxton will both receive a $5,000 donation and the Grant Township Food Cupboard in Hoopeston and Grace Lutheran Church Food Pantry in Rankin will both receive a $2,500 donation from the bank.

Families and the elderly in the bank’s rural areas have been hit hard by COVID-19, and bank representatives are honored to be able to help, especially during the upcoming holiday season. “We cannot thank these groups enough for their tireless work in our community, and we hope this contribution can help them continue making an impact,” the company said in a statement.

have been hospitalized since December 1 or whether some were discharge and others admitted.

Forty-six Vermilion County residents have died of Covid-related illness, including six from Thursday to Sunday. They include two women in their 70s, two in their 90s and an 80-year-old and one man in his 80s. Toole reported that 53,544 negative test results have been received from the start of the pandemic.

Totals for area Vermilion County communities as of Monday morning were:
